#### ASKED FOR A CHANGE

Crushed Gravel to Take the Place of Crushed Stone.

#### WOULD MAKE A POOR STREET

Matters With Which the Board of Public Works Occupied the Time Yesterday.

Residents on Jefferson avenue decided that they wished crushed granite gravel for a foundation for their Macadam street, and yesterday petitioned the board of public works to make a change in the specifications, but when it was explained that gravel would not make a good foundation they were satisfied. J. C. Fitzgerald, representing Mr. Beck's property at the corner of Fulton and Fuller streets, appeared before the board and stated that the retaining wall built in front of Mr. Beck's property had fallen in upon the lot. He asked that damages be allowed Mr. Beck for the injury to his lot. Mr. Fitzgerald was informed that the wall had been required and the board had done all it could. The subject of damages would have to come before the common council.

Joseph Lillie, the man with a pure water scheme, was before the board, but was told he should correspond with the Cook Well company of St. Louis in regard to his water supply. F. D. Gilbert stated to the board that he saw by the papers that the board proposed to build an addition to the standpipes. He said most of the plumbing on the hill was adapted to nothing but reservoir pressure, and when the standpipes were first erected most of it was burst by the extra pressure, and if the standpipes were extended another section higher it would drown out the whole hill district. H. M. Houseman and Rodney Sessions were present and asked that crushed gravel be used in the foundation for the macadam on Jefferson avenue instead of crushed limestone, as called for by the specifications. They were informed that if large enough gravel stones be used, as that which crushed they would form cubes instead of presenting smooth round surfaces, the proposition would be accepted.

#### ATHLETIC ENTERTAINMENT.

Up to the Times—What North Park Offers Today.

Regular patrons of North Park have no cause to complain of the nature of attractions offered the patrons. Manager Russell always strives to secure features that are new and it is needless to say that he succeeds in his efforts admirably. He is ever springing some novelty on the public, some great novelty in the way of entertainment. Sparring contests and athletic sports seem to be the popular fad now-a-days, and desiring to be up with the times Manager Russell has engaged at a heavy expense the North End Athletic club for today. The entertainment will be a clean, highly enjoyable affair and no one should fail to witness it. Among the many features of the program none will be more interesting than the friendly sparring bout between Messrs. Gaffney and Johnny Roach. A blackened glove contest has also been arranged for, which will amuse. Another feature will be a battle royal between four agile sparrows.

#### NOW THIS IS GOOD.

And Hundreds Will Rise Up and Call Them Blessed.

Wykes & Burns know how to deal with hard times. They have gone and put in a big stock of second-hand school books along with the new ones, so the school children can get anything they want very cheap if they are willing to use books with an ear mark or a finger mark on them. Thousands will jump at this chance, for money is money these days. Buying school books is a great burden for many parents, and especially those with large families, and it was a bright and thoughtful move in this firm to help them out at a trifling cost. Make a note of it and get in early when the books are wanted as there will be a great rush. If you want new ones they've got them also.

**The "WHITE CITY FLYER"** to the World's Fair

Is a popular train for the reason that it leaves at a convenient hour (7:20) in the morning and arrives at Midway Plaisance at noon—right at the fair entrance. This gives one the full after-

noon at the fair, which is as much as most people can stand the first day. No time lost by this arrangement. Make the trip in the forenoon, only four and one-half hours and see the fair in the afternoon. Extra provision will be made to accommodate the large number that will go on the 12th to attend the "Michigan Day" celebration. Try the "Flyer" and see what an economizer of time it is and how enjoyable the trip is on a fast train. Round trip rate on the 12th will be \$5.40, good ten days, via the "West Michigan."
